

PRODUCT ASSURANCE POLICY

As Eczacıbaşı Consumer Products, we aim to provide the best and high quality products to our consumers while accompanying them in a clean and healthy living.

In pursuit of this objective, our commitments are as follows:

- To implement systematic arrangements to ensure healthy and reliable products that adhere to defined and measurable quality parameters.
- To utilize technological advancements in a appropriate infrastructure and work environment to enhance product assurance.
- To benefit from communication and training opportunities to ensure healthy and reliable products encouraging the conscious participation of our employees.
- To continuously improve the system by following customer requirements, legal obligations and management system standards (or related standards).
- To design and manufacture products while upholding principles of sustainability and ensuring employee safety without compromise.
